## Apollo® Magna Kitchen Worktops

Create inspired Apollo® Magna kitchen worktops that flow smoothly into Apollo® Magna sinks and backsplashes to bring imagination and practicality to your scheme.

With Apollo® Magna solid surface, you get the ultimate freedom of expression in kitchen design, combining enduring beauty with valuable functionality.

## Effortless Beauty

Apollo® Magna solid surface is easy to clean, and is NSF Certified for food contact. Because Apollo® Magna is nonporous, stains do not penetrate the surface.

With proper cleaning, Apollo® Magna also resists the growth of mould, mildew and bacteria.

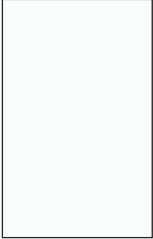

## Seamless Appearance

Further high-performing Apollo® products, such as sinks and backsplashes, can be perfectly integrated to create the sleek appearance of a single, solid surface. With a coved backsplash, there are no traps to collect dirt and moisture. Apollo® Magna also works brilliantly together with such materials as stainless steel, wood, and glass.
