

# Apollo® Modular Worktop Range: Handling & Storage Instructions

## Handling

**Do:** Always carry your worktops on their edge, they should be lifted and handled by at least 2 people – **please check the yellow weight details at the bottom of this label for this information.** This will prevent the worktops from bowing or twisting under their own weight and becoming unstable (this can alsosome products and in particluar damage sink modules, breaking the seal).

**Do:** Wear Heavy-duty Gloves when moving worktops.

## Storage

**Do:** Prepare the storage area for your delivery, it should be a dry room at room temperature (18 - 20°C), away from direct heat sources and damp floors or walls.

**Do:** Ensure that the area where the worktops are to be placed has enough space and that it is flat, dry and free from dirt and debris, do not place directly on the floor but onto at least 4 equal thickness bearers. This is essential to enable ease of handling and to minimise the risk of edge and end damage from floor contact and to avoid bending or twisting.

**DO NOT:** Store in an outhouse, shed, damp garage or any room that is not weather proof, with an unstable temperature, or in an unoccupied property.

## Before Installation

**Do:** Acclimatise the worktops to their installed room 24 – 48 hours before installation – move the worktops into or next to the installation site and unpack, store flat on the floor as before but with equal height dividing wooden strips between each worktop to allow good air circulation, as below.

### Magna Range:-

3M x 600 x 34mm = 58.5kg  
 1.8M x 600 x 34mm = 31.5kg  
 1.8M x 900 x 34mm = 47.5kg  
 1.8M Sink Module = 44kg

### Slab Tech Range:-

2500 x 625 x 30mm = 82kg  
 1210 x 625 x 30mm = 40kg  
 2000 x 900 x 30mm = 95kg  
 2500 Sink Module = 82kg

3000 x 625 x 20mm = 66kg  
 1500 x 625 x 20mm = 33kg  
 2000 x 900 x 20mm = 63kg  
 3000 Sink Module = 66kg

### Compact Range:-

3050 x 650 x 12mm = 35.0kg  
 3050 x 95 x 12mm = 5.5kg  
 3050 x 900 x 12mm = 48.0kg  
 3050 x 1200 Splashback = 46kg

### Wood Range:-

3000 x 640 x 40mm = 54kg  
 4000 x 640 x 40mm = 72kg  
 3000 x 900 x 40mm = 76kg  
 4000 x 900 x 40mm = 101kg
